To
The Superintending Engineer,
[ERO: Kesara(319), Sec Dammaiah guda, Area Code :200714]
[Address]

Sub: Complaint regarding disputed/duplicate electricity bills, incorrect billing, non-resolution of grievance and disconnection notice – USC No. 110471327, SC No. 2007/11010 – Request for immediate verification and correction – Reg.

Respected Sir/Madam,

I respectfully submit that I am the consumer bearing **USC No. 110471327** and **SC No. 2007/11010**. I have been facing serious problems relating to my electricity bills for the last **three years**.

In this regard, I have approached the concerned **Assistant Engineer (AE)** and **Deputy Engineer (DE), Dammaiguda**, several times and personally requested them to verify the bills and resolve the issue. I have also submitted **written complaints** and approached the concerned office on several occasions. However, my grievance has not been properly resolved.

I also approached the **Superintending Engineer (SC Madam)** and requested her intervention. I was advised to approach the concerned AE and DE and get the issue resolved. Accordingly, I again approached the AE and DE; however, the issue was not properly attended to.

I submit the following discrepancies for kind verification:

1. **Two bills appear to have been generated for the same billing period**, namely **03-02-2025 to 03-05-2025**, with different amounts, as follows:
    - Bill amount of **Rs. 8,325/-**
    - Another bill amount of **Rs. 5,414/-**

    I therefore request that the Department kindly verify whether both bills relate to the same service connection and billing period and, if so, clarify the reason for generation of two bills with different amounts.
2. The AE is stated to have furnished an **explanation dated 11-10-2024**, whereas the bill in question was generated for the period **09-11-2024 to 03-12-2024**, showing an amount of **Rs. 6,311/-**. Therefore, I request that the concerned authority kindly verify the relevant dates, meter readings, billing records and explanations, as there appears to be a discrepancy in the billing history.
3. My **meter was not burnt or damaged**, and I had **not submitted any complaint to the Electricity Department stating that the meter was burnt**. Therefore, any explanation or record relating to a burnt/damaged meter may kindly be verified with reference to the official meter records, inspection reports and departmental records.
4. I was informed by **Sri Ramakrishna, LI**, that the consumer had paid an amount of **Rs. 8,000/-**, but that the current bill was not paid. I repeatedly requested the concerned officials to explain why the said amount was not properly adjusted or reflected in the consumer account and why further dues were being shown. However, different explanations were furnished to me instead of properly resolving the issue. I therefore request that the payment

of **Rs. 8,000/-** and its accounting in my consumer account may kindly be verified from the official records.

5. I submit that I have repeatedly approached the concerned officers both **orally and in writing**, but the explanations furnished by the AE do not properly address the discrepancies raised by me. I therefore request that the complete billing, meter-reading and payment history may kindly be independently verified from the departmental records rather than relying solely upon the explanation furnished by the concerned officer.
6. I have now received a **disconnection notice granting seven (07) days' time**. Since the electricity bill is under dispute and I have already approached the Department several times seeking verification and correction, I request that **no disconnection action may kindly be taken until my complaint is examined and a reasoned decision is communicated to me in writing**.

I further submit that **my house was not generally kept locked**. Therefore, if the concerned AE or any other official has stated or recorded that the house was found locked on any occasion, I request the Department to kindly **produce the relevant proof or inspection record showing the dates on which the house was allegedly found locked**, including the **meter-reading records, inspection reports, photographs, meter status records, or any other supporting documents** available with the Department.

I therefore request that the Department may kindly verify the **actual meter readings, meter status and inspection records for the relevant periods** and compare the same with the bills generated in the system. The **complete and accurate meter-reading history** may kindly be obtained and verified and, if any discrepancy is found, the bills may kindly be **recalculated and corrected accordingly**.

Therefore, I respectfully request that:

1. The complete **three-year billing history** of my service connection may kindly be obtained and verified.
2. The alleged **duplicate bills for the same billing period** may kindly be examined and the billing records corrected, wherever necessary.
3. The complete **meter-reading history, meter status, payment history and billing records** may kindly be verified from the departmental/system records.
4. The amount of **Rs. 8,000/- stated to have been paid** may kindly be verified and, if confirmed, properly accounted for and adjusted in my consumer account.
5. The explanations furnished by the concerned AE may kindly be examined in the light of the **actual departmental records, meter readings, inspection records and billing history**.
6. The disputed bill amount may kindly be **recalculated and corrected**, and any excess amount found to have been collected may kindly be **adjusted/refunded as per the applicable rules**.
7. In view of the pending dispute and my repeated complaints, the **proposed disconnection may kindly be kept in abeyance**, subject to the applicable rules, until the matter is examined and a decision is communicated to me.
8. A **written action-taken report**, together with a clear statement showing the **correct amount, if any, payable by me**, may kindly be furnished.

I therefore request your good office to kindly conduct an **impartial and record-based verification** of the above discrepancies and take necessary action to resolve the matter at the earliest.

Yours faithfully,
